Virgin 2-Year-Old Angus Bulls

66 years of Performance Testing

Purebred Angus Cattle

# CAMMACK FARMS

Cattlemen:

Cammack Farms will be hosting their annual production sale February 5th, 2026. Selling will be 26 two-year-old Angus bulls.

We invite you to the headquarters on sale day for lunch and to view the cattle. The sale will be hosted by Big Iron Auctions, with bidding online. You will be able to bid in real time at the farm or from your own homes. The sale will be posted online 3 weeks before sale day with pictures and videos.

These cattle are the result of 66 years of performance testing and 51 years of AI breeding to some of the best bulls in the Angus breed.

We strive to produce moderate-framed cattle that will produce year after year. These cattle have been selected for low birth weight, moderate milk, and good growth. Calves have not been creep fed and are developed on rations that allow them to express their genetic potential without getting overly fat.

Please contact Mike or Troy with any questions or to view the sale offering at your convenience. We will be happy to show the bulls to you and talk about our program.
